Informatics Engineering graduate with hands-on experience in end-to-end data analytics. Proficient in Python, SQL, and Power BI — building ETL pipelines, dimensional models, and executive dashboards that enforce data integrity and translate complex datasets into clear business decisions. Identified a $4.09B fiscal visibility gap in a government-level dataset. Collaborative by nature, with a track record of communicating analytical findings to cross-functional, non-technical stakeholders. Seeking a Data Analyst or BI Developer role within Saudi Arabia's Vision 2030 digital economy.

CORE COMPETENCIES

- ✓ Data Analysis & Wrangling
- ✓ ETL Pipeline Development
- ✓ SQL Query Optimization
- ✓ Power BI Dashboards & DAX
- ✓ KPI Tracking & Reporting
- ✓ Data Governance & Integrity
- ✓ Star Schema Modeling
- ✓ Cross-functional Collaboration
- ✓ Data Storytelling

EXPERIENCE

Data Analyst — Independent Project | Mar 2026

NYC City Council · Discretionary Funding Dataset

- Audited a $4.99B government discretionary dataset (97K+ records), engineering a Python (Pandas) + MySQL ETL pipeline with Star Schema architecture and data integrity validation checks — enabling multi-dimensional fiscal analysis for the first time.
- Uncovered a $4.09B (87.52%) program-level categorization gap, translating the finding into an executive Power BI dashboard and a Pyramid Principle consulting deck that required zero data background to act on.

Data Analyst — Job Simulation | Feb 2026

BCG X (Boston Consulting Group) · Forage

- Analyzed multi-channel digital campaign performance using advanced Excel Pivot Tables, collaborating cross-functionally to identify the highest-ROI channels and deliver a structured budget reallocation recommendation aligned with client objectives.

Data Visualization Analyst — Job Simulation | Feb 2026

Tata Consultancy Services · Forage

- Modeled and visualized retail transaction data in Power BI, surfacing seasonal revenue peaks and Top-10 customer segments to directly support a market expansion recommendation for executive stakeholders.

Product Management Analyst — Job Simulation | Feb 2026

Electronic Arts · Forage

- Defined and evaluated a KPI framework for a mobile strategy game, translating performance data into a structured business presentation for cross-functional product and executive stakeholders.

EDUCATION

B.Sc. in Informatics Engineering | Mar 2020 – Feb 2025

International University for Science and Technology (IUST) · Damascus, Syria

PROJECTS

Video Game Market Analysis | Jan 2026

Python · SQL · Power BI

- Built an end-to-end data validation pipeline ensuring data integrity across a multi-source dataset, and delivered Power BI dashboards tracking global market share, publisher revenues, and regional sales trends.

Global Layoffs Business Data Analysis | Nov 2025

MySQL

- Analyzed 2,361 layoff records across 50+ countries using advanced SQL (CTEs, window functions, rolling aggregations) to map the 2020–2023 tech downturn by region, industry, and company funding stage.

Business Survey Analytics Dashboard | Oct 2025

Power BI

- Synthesized 631 survey responses from data professionals across 21 countries, uncovering salary benchmarks and satisfaction drivers by role — delivered as a self-service Power BI report with full dimensional modeling.

SKILLS

Languages	Python (Pandas, NumPy, Matplotlib, Seaborn) · SQL (MySQL) · DAX
BI & Visualization	Power BI (Dashboards, Reports, Data Modeling) · Excel (Pivot Tables, Advanced Formulas)
Data Engineering	ETL Development · Dimensional Modeling · Data Governance · Data Integrity · CTEs · Window Functions
Cloud & Tools	AWS (S3, RDS, Lambda, IAM) · Git · GitHub · MS Office
Soft Skills	Data Storytelling · Cross-functional Collaboration · Stakeholder Communication · Attention to Detail

CERTIFICATIONS

In Progress	Microsoft Generative AI for Data Analysis Professional Certificate
IELTS	IELTS Academic Test, Score 7/9
IBM & eYouth	IBM Certified: Generative AI & AI Agents
AWS	AWS Cloud Practitioner Essentials
Harvard	CS50P: Introduction to Programming with Python
freeCodeCamp	Data Analysis with Python
Various	Intermediate Python (DataCamp) · Advanced SQL (Mode) · Prompt Engineering (OpenAI & DeepLearning.AI)

LANGUAGES

Arabic	Native / Bilingual
English	Fluent · IELTS Academic 7.0
